Three ways to tell 1954 was a great year for America

1. Babies This year the stark delivered babies at the rate of 10,990 a day. That's enough new people to make a city the size of Akron, Ohio, every single month!

2. Savings This year Americans put more of their hard-earned savings account dollars into Insured Savings and Loan Associations than anywhere else. People know insured Savings and Loan Associations give excellent returns on their money. They know these friendly, home-town organizations are safe.

3. Homes In 1954, almost 6 out of every 10 families owned their own homes. And the Insured Savings and Loan Associations made one third of all home mortgage loans. Last year they were the nation's largest single source of mortgage loans for home building, buying and alterations.

GET TO KNOW the Insured Savings and Loan Association in your community. Your savings are insured up to \$10,000 by the Federal Savings and Loan Insurance Corporation—an agency of the U. S. Government. And your association offers complete and really expert mortgage services. You'll find your association a pleasant and profitable place to do business.
